ORGANIZED BY

HOSTED BY

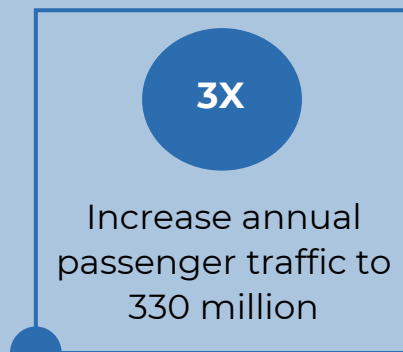

**Global Aviation Issues Conference** is a two-day conference that brings together over 500 attendees – including transport and aviation leaders and global experts and suppliers from the Middle East and around the world, to discuss how they can collaborate to deliver global aviation strategies and wider industry growth, sustainability and profitability. The conference is held concurrently with Saudi Airport Exhibition, recognized as the largest airport procurement event in the region.

## SAUDI AVIATION STRATEGY

Key to the event is the Saudi Aviation Strategy, backed by a **US\$100 billion** aviation investment plan that will transform the Middle East's largest aviation market to become among the Top 5 air passenger transit hubs globally. The ripple effects of these investments are expected to be monumental to the regional economy.
